In response, Applicant hereby elects Group I as related to Group IV, Group V, Group VII, Group IX, Group XI, Group XIII, Group XV, Group XVII, Group XIX, Group XXI, Group XXIII, Group XXV, Group XXVII, Group XXIX, Group XXXI, Group XXXIII, Group XXXV and Group XXXVII, respectively, which read altogether on Claims 1, 9, 14 and 22 for examination in this case, with traverse.

The election is made with traverse, because claims 1-26 all encompass the limitations of any one refrigerant from the group consisting of R23, R116, R170, R508a, R508b and R1150 (see Specification paragraph 31 and Table 1-1, variable D) as well as refrigerant R740. Therefore, while the inventions being separately patentable, they are related to the same art as indicated in the Examiner's restriction showing only class 252, subclass 67 for all groups and therefore the Examiner should not be unduly burdened in doing the search and examination on all claims 1-26 accordingly.

Respectfully submitted,
